Buildings Removed.

The last building in Virginia Fark was gotten into the street Thursday and is on its way to a vacant lot on East First street, near the home of East First street, near the home of E W. Glass. A great quantity of debris and material thrown aside when the buildings were torn down still remain, which gives the park a very uncanny appearance. All this will be removed in a few days and in a short time the work of beautifying the grounds will be begun. In order to restore the grounds to their former beauty, quite a lot of preliminary work will have to be done this fall.

MARKS LIK =-FURNACE

AT FAR LESS COST.

Moore's Air-Tight Heater

Is built on an entirely different principle from other heaters. It heats like a furnace—by circulation instead of radiation. It burns hard coal or the cheapest kind of slack and can be run at less than half the cost of other heaters. Furthermore, it heats a much larger space than other heaters on the market. One Moore's Air-Tight Heater will keep your entire house comfortable.

Cole's Original Hot Blast Heater

Is guaranteed to save 1-3 in fuel over any lower draft stove of same size using soft coal or slack.

A Full Line of Oak, Cannon and Laundry Heaters, Cook Stoves and Ranges.
